

RADIATION ONCOLOGY

CLINIC UPDATES

Department Renovation

After 14 months and 3 different phases, we have finally completed the renovations of the department's B and T levels. A special thank you to Emily Timson who assumed the role of our in-house project manager, skillfully overseeing the coordination of this renovation!

Patient Satisfaction

It comes without surprise that we are consistently rated among the top departments at NYP/Columbia in terms of patient satisfaction. In the past 6 months, we've scored a 4.9 out of 5. Here's a snapshot of some of the sentiments expressed by our patients!

Everyone I have dealt with is kind, considerate, and professional. The ladies who greet you as you walk in are wonderful, as are the nurses and technicians. Doctor Connolly is excellent. She is very knowledgeable and thorough. I would highly recommend her to anyone in need of her services.

I was treated with respect and kindness, something found not too often these days. Each person I spoke to was overly nice and caring. At this difficult time in my life these things truly matter immensely!

My experience was fantastic! They always make me feel relaxed, and they are so caring. Could not have made a better choice for my treatment. Thanks!

From start to finish, every time I've been at Columbia, everybody has been warm, professional, and fantastic. I appreciate everybody and all the hard work they've done to keep me alive. Thank you all!

The entire Radiation team is exceptional. They are professional, caring, and empathetic along with having an overall welcoming environment. I praise the entire team whenever someone asks about my radiation experience.

Dr. Horowitz and his colleagues were very professional, friendly, thorough, easy to speak to, and willing to answer any and all questions we had. Would highly recommend this team!
